The Company expects to report net loss of approximately \$4.0 million for the six months ended June 30, 2024 compared to net loss of \$9.2 million for the six months ended June 30, 2023. The differences in revenue and net loss are primarily attributable to the following factors: The Company exploring strategic alternatives for its clinical operations and reporting revenue related to the clinical operations as a component of discontinued operations. The reduction in net loss was attributable to the sale of the clinical operations and settlement of trade payables with the issuance of common shares.
