DENVER, January 27, 2022 (GLOBE NEWSWIRE) -- Assure Holdings Corp. (the **Company** or **Assure**) (NASDAQ: IONM; TSXV: IOM), a provider of intraoperative neuromonitoring services (**IONM**), announced an annual, quarterly and monthly record for managed cases in the full-year period, the fourth quarter and the month of December 2021.

John A. Farlinger, executive chairman and CEO said, "The Company reported our highest number of managed cases in the full-year period, the fourth quarter and the month of December 2021. Comparatively, in 2020, we performed over 9,900 managed cases during the full year, including more than 3,000 in the fourth quarter and nearly 1,100 in December 2020."

Farlinger continued, "Although we continue to experience a limited impact on our managed case volume as a result of COVID-19 and acknowledge that the pandemic has slowed our expansion efforts in certain markets, Assure is pleased to have grown its total managed cases by more than 75% in 2021."

Farlinger concluded, "Looking forward, we continue to expect to grow our managed case volume to more than 25,000 managed cases in 2022 despite the lingering impact of COVID-19, representing a potential increase of more than 40%."

Key Performance Metrics

This announcement contains the key performance metric, managed cases, that management of the Company utilizes to determine operational performance from period to period. A managed case is all technical cases Assure performs and any cases where the professional bill is from a 100% owned Assure entity and excludes cases when a global bill is presented and we calculate it based on bills presented during the relevant measurement period. Management believes that managed cases is an important measure of the Company's operational performance because it is a consistent measurement to evaluate patient revenue streams.
